WEB EXPERIENCE

Make benefits feel like benefits again with TASC'S New MyTASC – one-stop, online access to all Universal Benefit Account[®] and Continuation accounts.

TASC's web and mobile tools ensure easy access, account management, and benefit fund security for our customers.

TASC Card Lock. All participants receive a TASC Card to access their benefit funds. If a card is lost or stolen, TASC Card Lock lets them disable a card in seconds from the TASC website or mobile app—and unlock it once it's found.

Pay the Provider. Instead of paying out of pocket and waiting to be reimbursed, participants can use their TASC Card to pay for eligible expenses, or they can use our convenient web payment feature. Simply scan or take a picture of the provider bill and upload it. TASC will then pay the bill directly from the appropriate benefit account.

Email Alerts. Participants are notified when requests are received and paid, making it easy to stay on top of account activity and available funds.

Seamless Account Management. Our website, mobile app, and customer care call center make it easy for participants to manage their account (including COBRA premium payment) and get the support they need, anytime and anywhere! Plus, account information is connected across all platforms, which means participants don't have to re-enter data or restart a process between devices.

TASC Wallet. These user-friendly features make benefits management simple and fast:

- Card Management. Stores image of TASC Card; lets participants lock a card, report lost/stolen cards, or request more cards.
- Card Holder. Stores digital images of other important cards (insurance cards, rewards cards even a gym membership card).
- Receipt Repository. Keeps benefits-related receipts in one convenient place.

The TASC web. Just one more way we're making benefits smart, easy, and connected.
